

Growing

We hope to develop children's skills in collage, painting, printing, making and drawing using sketchbooks. They will also learn about a range of artists and movements alongside their practical work. All children, regardless of starting point, will make progress and grow in Art.

Resilient

Opportunities to trial, test, revisit and reflect are woven into the Art curriculum, meaning if we don't succeed at first, we don't give up. We develop our resilience and confidence when practising techniques and exploring in sketchbooks.

Head, Heart, Hands

"I can..." statements at the beginning of each pathway state how the unit covers the development of children's head, heart and hands. 'Head' links to the knowledge learnt, 'heart' refers to children's attitudes and feelings towards art and 'hands' is about the application of skills

Art INTENT

Opportunities

Art gives children opportunities that can be taken forward into careers within the creative, cultural, heritage and digital media industries. The subject develops creative and expressive lifelong skills that are applicable everywhere, from home and leisure to work. Children will have the opportunity to see artists and exhibitions online and where possible in person.

Team Work

Every child is an artist. We work together as 'Class Crits' to reflect on and discuss learning happening in the classroom. There are opportunities within Art to work as a team on collective projects.

Wonder

The world is full of awe and wonder. We try to make the most of our local surroundings when planning for Art and Design trips. Wonder is further developed through exhibitions from themed days or weeks which allow children to be inspired by others.
